

Z KCP 'HWPEVIQP 'O C VGTICNI TQWR'EQ0'NVF  
Safety Data Sheet  
Cobalt (II) selenide

---

1. Product and Company Identification

---

Trade Name: Cobalt (II) selenide  
Chemical Formula: CoSe  
Recommended Use: Scientific research and development

Manufacturer/Supplier: Z KCP 'HWPEVIQP 'O C VGTICNI TQWR'EQ0'NVF  
Street: P q08; .T c| gmg"Xcmg{.J ki j /Vgej "\ qpg"  
City: Z KCP "  
State: Uj ccpzk'  
Zip Code: 932299"  
Country: Ej kpc"  
Tel #: - : 8/4; /: ; ; 5: 921 : 8/3573; 354273

24-Hour Emergency Contact:

---

2. Hazards Identification

---

Signal Word: Danger

Hazard Statements: H301+H331: Toxic if swallowed or if inhaled  
H373: May cause damage to organs through prolonged or repeated exposure.  
H410: Very toxic to aquatic life with long lasting effects.

Precautionary Statements: P260: Do not breathe dust/ fume/ gas/ mist/ vapors/ spray.  
P264: Wash skin thoroughly after handling.  
P270: Do not eat, drink or smoke when using this product.  
P271: Use only outdoors or in a well-ventilated area.  
P273: Avoid release to the environment.  
P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor.  
P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
P314: Get medical advice/ attention if you feel unwell.  
P330: Rinse mouth.  
P391: Collect spillage.  
P403+P233: Store in a well-ventilated place. Keep container tightly closed.  
P405: Store locked up.  
P501: Dispose of contents/ container to an approved waste disposal plant.

HMIS Health Ratings (0-4):  
Health: 2  
Flammability: 0  
Physical: 0

---

### 3. Composition

---

Chemical Family: Nonmetal  
Additional Names: None

Cobalt (II) selenide (CoSe):  
Percentage: 100 wt%  
CAS #: 1307-99-9  
EC #: 215-155-1

---

### 4. First Aid Procedures

---

General Treatment: Seek medical attention if symptoms persist.  
Special Treatment: None  
Important Symptoms: None

Inhalation: Remove victim to fresh air. Supply oxygen if breathing is difficult. Keep patient warm. Seek immediate medical attention.  
Ingestion: Seek immediate medical attention.  
Skin: Immediately wash affected area with mild soap and water. Remove any contaminated clothing. Seek immediate medical attention.  
Eyes: Flush eyes with water, blinking often for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek immediate medical attention.

---

### 5. Firefighting Measures

---

Flammability: Non-flammable  
Extinguishing Media: No special restrictions – use suitable extinguishing agent for surrounding material and type of fire.  
Spec. Fire Fighting Procedure: Use full-face, self-contained breathing apparatus with full protective clothing to prevent contact with skin and eyes. See section 10 for decomposition products.

---

### 6. Accidental Release Measures

---

If Material Is Released/Spilled: ▶ Wear appropriate respiratory and protective equipment specified in special protection information. Keep unprotected persons away. Isolate spill area and provide ventilation. Vacuum up spill using a high efficiency particulate absolute (HEPA) air filter and place in a closed container for disposal. Take care not to raise dust.  
Environmental Precautions: Isolate runoff to prevent environmental pollution.

---

### 7. Handling and Storage

---

Handling Conditions: Avoid contact with skin and eyes. Wash thoroughly after handling.  
Storage Conditions: Store in a cool dry place in a tightly sealed container. Store away from water/moisture. This product is moisture sensitive. Store apart from materials and conditions listed in section 10.  
Work/Hygienic Maintenance: Do not use tobacco or food in work area. Wash thoroughly before eating and smoking. Do not blow dust off clothing or skin with compressed air.  
Ventilation: Provide sufficient ventilation to maintain concentration at or below threshold limit.

---

## 8. Exposure Controls and Personal Protection

---

Permissible Exposure Limits:	0.1 mg/m <sup>3</sup> as Co, long-term value
Threshold Limit Value:	0.02 mg/m <sup>3</sup> as Co, long-term value
Special Equipment:	Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.
Respiratory Protection:	Dust Respirator
Protective Gloves:	Rubber gloves
Eye Protection:	Safety glasses or goggles
Body Protection:	Protective work clothing. Wear close-toed shoes and long sleeves/pants.

---

## 9. Physical and Chemical Characteristics

---

Color	Grey
Form:	Powder, Granules, Pellets, Sputtering target, Custom parts
Odor:	N/A
Water Solubility:	Insoluble
Boiling Point:	N/A
Melting Point:	N/A
Flash Point:	N/A
Autoignition Temperature:	N/A
Density:	7.65 g/cc
Molecular weight:	137.89 g/mol

---

## 10. Reactivity

---

Stability:	Stable under recommended storage conditions
Reacts With:	Oxidizing agents, strong acids, strong bases
Incompatible Conditions:	Heat, water/moisture
Hazardous Decomposition Products:	Metal oxide fume, cobalt/cobalt oxides, selenium/selenium oxides, hydrogen selenide

---

## 11. Toxicological Information

---

### Potential Health Effects:

Eyes:	May cause irritation
Skin:	Causes irritation to skin and mucous membranes
Ingestion:	Toxic if swallowed
Inhalation:	Toxic if inhaled
Chronic:	Chronic exposure by inhalation can produce symptoms that include pallor, coating of the tongue, anemia, irritation of the mucosa, lumbar pain, liver and spleen damage, as well as any of the other previously mentioned symptoms. Chronic contact with selenium compounds may cause garlic odor of breath and sweat, dermatitis, and moderate emotional instability, cough, chest pain, difficulty in breathing.

### Signs & Symptoms:

Acute selenium poisoning produces central nervous system effects, which include nervousness, convulsions, and drowsiness. Other signs of intoxication can include skin eruptions, lassitude, gastrointestinal distress, teeth that are discolored or decayed, odorous ("garlic") breath, and partial loss of hair and nails. Cobalt is an experimental neoplastigen and tumorigen. It is an experimental carcinogen of the connective tissue and lungs. Cobalt metal and inorganic compounds are classified as an animal carcinogen by ACGIH. Ingestion may cause burning in the mouth, esophagus, and stomach. Inhalation of dusts and fumes may cause irritation of the respiratory tract and labored breathing and coughing. Sensitization, nausea, flushing of the face and ringing in the ears is also possible. Chronic ingestion may result in pericardial effusion, polycardial effusion, polycythemia, cardiac failure, vomiting, convulsions and thyroid enlargement.

### Aggravated Medical Conditions:

N/A

### Median Lethal Dose:

N/A

### Carcinogen:

IARC: 2B - Group 2B: Possibly carcinogenic to humans (Cobalt (II) selenide)  
3 - Group 3: Not classifiable as to its carcinogenicity to humans (Cobalt (II) selenide)  
NTP-R: Reasonably anticipated to be a carcinogen: limited evidence in humans or sufficient evidence from studies in experimental animals.  
ACGIH A3: Animal carcinogen: Agent is carcinogenic in experimental animals at a relatively high dose, by route(s) of administration, at site(s), of histologic type(s), or by mechanism(s) not considered relevant to worker exposure. Available epidemiologic studies do not confirm an increased risk of cancer in exposed humans. Available evidence suggests that the agent is not likely to cause cancer in humans except under uncommon or unlikely routes or levels of exposure.  
OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

---

## 12. Ecological Information

---

### Aquatic Toxicity:

N/A

### Persistent Bioaccumulation Toxicity:

N/A

### Very Persistent, Very Bioaccumulative:

N/A

### Notes:

Very toxic to aquatic life with long lasting effects.  
Do not allow material to be released to the environment without proper governmental permits.  
Do not allow product to reach ground water, water course or sewage system, even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground.  
Also poisonous for fish and plankton in water bodies.  
Avoid transfer into the environment.

---

### 13. Disposal Considerations

---

Dispose of in accordance with local, state, national, and international regulations.

---

### 14. Transportation Data

---

Hazardous: Hazardous as powder only.

Hazard Class: 6.1 Toxic substances  
Packing Group: III  
UN Number: UN3283  
Proper Shipping Name: Selenium compound, solid, n.o.s. (Cobalt (II) selenide)

---

### 15. Regulatory Information

---

Sec 302 Extremely Hazardous: No  
Sec 304 Reportable Quantities: N/A  
Sec 313 Toxic Chemicals: Yes

---

### 16. Other Information

---

This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.
